PROFESSIONAL SUMMARY

Results-driven Junior UI React / React Native Developer with 1+ year of internship experience building scalable, responsive web and mobile applications. Proficient in React JS, React Native, JavaScript, and REST API integration. Hands-on with Git/GitHub, Android APK/AAB builds, and frontend performance optimization. Eager to deliver high-quality mobile-first UI solutions in a fast-paced product environment.

TECHNICAL SKILLS

Frontend / Mobile: React JS, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap
Backend / APIs: Core Java, Spring Boot, REST APIs, PostgreSQL, SQL
Mobile Builds: Android APK / AAB Builds, Mobile Ads SDKs (AdMob / Meta Ads)
Tools & Other: Git, GitHub, Visual Studio Code, Microsoft Office, Excel, Analytical & Communication Skills

EXPERIENCE

Leadows Technologies Pvt. Ltd. — Software Developer Intern

Sep 2025 – Present

React JS | JavaScript | REST APIs | Spring Boot | Git/GitHub

- Developed and maintained 5+ React JS web applications with reusable UI components, ensuring cross-browser/device compatibility and improving UI consistency by ~15%.
- Integrated frontend React components with backend REST APIs (Spring Boot), streamlining data flow and reducing manual data-handling effort by 20%.
- Optimized component-level code following clean code practices, improving maintainability and reducing codebase complexity for the team.
- Collaborated using Git/GitHub for version control, branching, and code reviews in an agile cross-functional team environment.

CodeElevate Technology Pvt. Ltd. — Web & Java Developer Intern

Jan 2024 – Nov 2024

React JS | JavaScript | Java | REST APIs | Bootstrap | Git

- Built scalable web applications using React JS, JavaScript, Java, HTML5, CSS3, and Bootstrap, improving overall application efficiency by 10%.
- Integrated REST APIs and third-party libraries with React components across 3+ feature modules, reducing integration time by 25%.
- Resolved 15+ UI bugs and optimized front-end rendering, cutting page load time by up to 20% and enhancing cross-device UX.
- Built reusable React component library and maintained technical documentation, accelerating new developer onboarding and scalable development.

PERSONAL PROJECTS

REAL-TIME CHAT APPLICATION React JS | Spring Boot | Firebase | PostgreSQL

- Built a full-stack one-to-one real-time chat app using React JS, Spring Boot, Firebase Authentication, and PostgreSQL with secure login and private messaging for 50+ test users.
- Implemented real-time message updates, history persistence, and timestamps — eliminating page reloads and reducing latency ~30% via WebSocket architecture.
- Designed responsive React UI with reusable components; tested Android APK build for mobile compatibility validation across devices.

WORD GUESSING GAME TypeScript | CSS

- Developed an interactive Word Guessing Game (TypeScript/CSS) with animations, hover effects, and real-time feedback — fully responsive across all device sizes with zero external dependencies.

E-COMMARCE SITE [React](#) | CSS

- Developed a high-performance, responsive portfolio website using React.js and modern CSS, ensuring seamless user experience across devices
- Implemented clean UI architecture and reusable components, improving scalability and maintainability of the application
- Deployed the application on AWS S3 with optimized build configuration, achieving fast load times and reliable hosting

EDUCATION

B.Tech — Computer Science & Engineering, RTMNU University Aug 2021 – May 2025

Coursework: Data Structures, DBMS, Web Technologies, OOP, Operating Systems

HSC — Computer Science, MSBSHSE Board June 2020 – May 2021

CERTIFICATIONS & ADDITIONAL

- Java Developer Certification — CodeElevate Technology Pvt. Ltd.
- English Language Training Level 2 & 3 — Aspire TIHD
- ARISE Camp — Aspire TIHD
- Languages: English, Hindi, Marathi
