PROFESSIONAL SUMMARY

Results-driven Java and Spring Boot Developer with 1+ year of experience in design, development, validation, and support of full-stack applications. Proficient in translating functional and non-functional requirements into scalable system architectures. Experienced in REST API integration, Agile/SDLC delivery, and cross-functional collaboration. Passionate about performance engineering, clean code practices, and leveraging latest technologies to support digital transformation journeys.

TECHNICAL SKILLS

Primary Skills: Java (Core Java), Spring Boot, REST API Development

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Bootstrap

Database & Tools: SQL, PostgreSQL, Visual Studio Code, Git

Engineering Practices: SDLC, Performance Engineering, Quality Processes, Test Case Design

PROFESSIONAL EXPERIENCE

Leadows Technologies Pvt. Ltd.

Sep 2025 - April 2026

Software Developer Intern

- Design, develop, validate, and support web applications using HTML, CSS, JavaScript, and React, ensuring high performance and cross-device compatibility following quality processes.
- Collaborate with cross-functional teams to integrate frontend applications with backend services via Spring Boot and REST APIs, ensuring seamless system functionality and data flow.
- Translate functional and non-functional requirements into system requirements and implement clean, scalable, maintainable code aligned with SDLC and Agile methodologies.
- Apply performance engineering principles to debug, test, and optimize code, improving application stability and reducing recurring defects across releases.

CodeElevate Technology Pvt. Ltd.

Jan 2024 – Nov 2024

Web Developer & Java Developer Intern

- Developed and maintained scalable web and backend applications using Java, Spring Boot, React, and Bootstrap, improving overall application efficiency by 10% through structured code optimization.
- Collaborated with cross-functional teams to design, implement, and integrate REST APIs and third-party libraries, ensuring seamless system integration and efficient data handling.
- Applied performance engineering techniques to identify and resolve UI bottlenecks, reducing page load time by up to 20% and enhancing cross-device user experience.
- Created reusable UI components and technical documentation to support scalable development, estimation accuracy, and streamlined knowledge transfer across the team.

PERSONAL PROJECTS

REAL-TIME CHAT APPLICATION | React.js, Spring Boot, PostgreSQL, Firebase

- Architected and developed a full-stack one-to-one chat application using React.js, Spring Boot, Firebase Authentication, and PostgreSQL, designing secure REST APIs and a robust backend system.
- Implemented real-time messaging, message history persistence, and timestamp display without page reloads; wrote test cases and scenarios to validate functionality against specifications.
- Built responsive, reusable React components with clean architecture, demonstrating ability to code complex programs and apply design principles across the full SDLC.

WORD GUESSING GAME | HTML, CSS, JavaScript

- Developed an interactive, responsive Word Guessing Game with real-time feedback and dynamic animations, showcasing problem-solving skills and front-end engineering fundamentals.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

Aug 2021 – May 2025

RTMNU University | Core Subjects: Data Structures, DBMS, Software Engineering, Web Development, SDLC

HSC – Computer Science

Jun 2020 – May 2021

MSBSHSE Board

CERTIFICATIONS & ADDITIONAL INFORMATION

Certifications: Java Developer – CodeElevate Technology Pvt. Ltd. | English Language Training L2 & L3 – Aspire-TIHD | ARISE Camp – Aspire-TIHD

Languages: English, Hindi, Marathi
